e-mail: info@wocncb.org
web: www.wocncb.org

The Wound, Ostomy, and Continence Nursing Certification Board (WOCNCB) is currently exploring the feasibility of providing a unique credential. This would be an opportunity for LPNs/LVNs or RNs with an Associate or Diploma-level education to demonstrate proficiency in wound, ostomy and/or continence nursing. Following formal classroom education and precepted clinical experience, the knowledge and skill level of the clinician can be validated by a psychometrically sound and legally defensible examination.

If you are a LPN/LVN or RN with an Associate or Diploma-level education, or have a team member working in the areas wound, ostomy and/or continence, we invite participation in a job analysis survey regarding current practice. Please send contact information to Kathy Meyer via email to info@wocncb.org or call 1-888-496-2622.

The Wound, Ostomy and Continence Nursing Certification Board promotes the highest standard of consumer care and safety by providing credentialing in the areas of wound, ostomy, continence and foot care nursing. WOCNCB currently awards credentials to Registered Nurses who meet stringent qualifications and pass its certification examination. WOC certified nurses provide quality care to patients in a variety of settings, including hospitals, long-term care facilities, and home healthcare. The WOCNCB has certified more than 4,700 nurses in the United States.

For more information, contact the WOCNCB, (888) 496-2622, info@wocncb.org or visit the www.wocncb.org website.
